Financial Assistance Program Plain Language Summary

At Vernon Health, we understand that medical care can be unexpected and create financial hardship. We offer a financial assistance program to help. Eligibility is based on family income and federal poverty guidelines. Discounted or free care is available for those who qualify.

What is covered

Emergency and medically necessary services provided at Vernon Health hospital and clinics by Vernon Health-employed providers. The technical component of services performed at Vernon Health by non-employed providers may qualify; however, the professional component does not.

Am I eligible?

Patients may qualify for financial assistance for services received at our hospital or clinics. Assistance is based on federal poverty guidelines, updated annually at www.dhs.wisconsin.gov/medicaid/fpl.htm.

How do I apply?

Apply by completing a financial assistance application form and providing supporting documents.
